EDUCATION

Usman Institute of Technology - NEDUET
Bachelors in Science of Computer Science   Graduation Date: September 2019 - June 2023

WORK EXPERIENCE

Cluster Valley (Karachi, Pakistan)

Frontend Engineer – Angular/React   August 2022 – **Present**

- ❖ Developed and maintained scalable, responsive web applications using Angular and typescript, enhancing user experience and improving site load times by optimizing components and lazy loading.
- ❖ Collaborated with cross-functional teams, including designers, backend developers and product managers to deliver user-centered features and UI/UX improvements.
- ❖ Utilized RESTful APIs and Graph-QL to fetch and display data dynamically, improving data accessibility and efficiency for users.
- ❖ Played a key role in troubleshooting and debugging issues, utilizing Chrome DevTools and other tools to diagnose and resolved frontend issues.
- ❖ Conducted code reviews and peer programming sessions, promoting best practice in code quality, performance and maintainability.
- ❖ Integrated third party libraries and frameworks such as React and Angular using Angular material, React bootstrap. Tailwind CSS, Sass, Bootstrap, Material UI for better design.

Backend Engineer – Node JS   (onsite) December 2023 – **Present**

- ❖ Designed and Implemented RESTful APIs using Node.js and Express.js, ensuring high performance and scalability.
- ❖ Built server side logic and middleware functions for handling complex business requirements efficiently, used middle wares like body-parser, cors and Morgan to enhance API functionality. .
- ❖ Integrated APIs with database such as MongoDB and SQL-based databases like MYSQL and PostgreSQL.
- ❖ Implemented secure user authentication using JWT (JSON Web Tokens) and OAuth2 and manage role based access control for secure API endpoints.
- ❖ Proficient in Node.js runtime for building server side applications, hands on experience with middleware development, routing, handling HTTP requests/responses and strong understanding of event driven architecture and asynchronous programming using async/await and promises.

STPEWAY   Karachi, Pakistan
Internship – Web development   August 2020 – October 2020

- ❖ Assisted in building responsive and interactive web applications using Angular, HTML5 and CSS3, focusing in user centered design and mobile compatibility.
- ❖ Utilized JavaScript to create dynamic, interactive features, enhancing user engagement and improving site usability.
- ❖ Collaborated with senior developers to implement Angular components and modular design patterns, reducing code redundancy and enhancing application scalability.

SKILLS & INTERESTS

- ❖ **Languages**: JavaScript (ES6+), Typescript, HTML, CSS, SQL, NoSQL.
- ❖ **Frontend**: Angular, React, Redux, NgRx, Tailwind CSS, Material UI, Bootstrap.
- ❖ **Backend**: Node.js, Express.js, RESTful APIs, Socket.io.
- ❖ **Databases**: MongoDB, Mongoose, MySQL, Firebase, Redis.
- ❖ **Tools**: GitHub, Bit bucket, VSCode, Jira, Confluence, Postman, Cypress, Netlify, Vercel.
- ❖ **Soft Skills:** Communication, Teamwork, Leadership, Mentoring, Conflict Resolution, Prioritization.
