EXPERIENCE

Junior Angular Developer

Cluster Valley   📅 01/2022   📍 Pakistan

- Dedicated and skilled Angular Frontend Developer with 2 year of experience at Cluster Valley Software Company
- Proficient in developing dynamic and user-friendly web applications utilizing the Angular framework
- Developed responsive and feature-rich web applications using Angular framework, delivering better user experiences and meeting project requirements
- Implemented RESTful APIs and integrated them into the frontend to facilitate data exchange between the client and server
- Played a key role in troubleshooting and debugging issues, utilizing Chrome DevTools and other tools to diagnose and resolve frontend-related problems
- Worked on different Projects like Simplify VMS, HABEKO, and PAPA JOHNS
- Implemented different designs using HTML, SCSS, JAVASCRIPT
- Created mobile-friendly applications
- Integrated third-party libraries and frameworks such as React and Angular using angular material and react bootstrap for better design
- Worked closely with the backend team to integrate frontend components with the backend functionality, ensuring smooth data flow and real-time updates on product pages
- Did testing using Cypress and also debugging to identify and resolve UI/UX issues

Frontend Developer

University Project - FYP   📅 01/2023 - 12/2023   📍 Location

- Spearheaded the development of key user interface components, the authentication gateway, and a dynamic dashboard featuring seamless microfrontend integration
- Developed the web application on React for its component-based architecture, enabling modular and efficient frontend development
- Applied Material UI and React Bootstrap to design visually appealing and user-friendly interfaces, elevating aesthetics and user engagement
- Conducted Data validation through Yup and seamlessly managed form inputs using Formik, ensuring reliable user interactions and data integrity
- Enhanced the project's analytical capabilities by designing graphs and charts using Recharts and ApexCharts, enabling comprehensive data interpretation
- Skillfully integrated frontend with backend systems, orchestrating API calls for seamless component fusion
- Implemented organized codebase, enhancing readability, collaboration, and scalability

EDUCATION

Bachelors in Computer Science

NEDUET Usman Institute of Technology

📅 01/2019 - 01/2023   📍 Karachi , Pakistan

SKILLS

Angular   React

Javascript   Typescript

HTML   CSS

MongoDB

MySQL
